

Renaissance Moscow Monarch Center hotel
Leningradskiy prospekt 31a
26-27 January 2018

Exposition of an exhibition
second floor

GENERAL SPONSORS

- 1 Angioline[®]
- 2 Cardiomedics
- 3 Raymed Group

SPONSORS

- 4 TERUMO
- 5 Abbott

PARTICIPANTS EXHIBITION

- 6 VLAANT[®] MEDICAL COMPANY
- 7 BALTON[®]
- 8 STENTEX

PARTICIPANTS EXHIBITION

- 9 Alvamedica
- 10 PHILIPS
- 11 Cordis
- 12 СИМЭНС Healthineers
- 13 SANOFI
- 14 CARDEX
- 15 Мпланта
- 16 Medtronic
- 17
- 18

V TRANSRADIAL WORKSHOP
TREC-2018

Friday, 26 January 2018

08:00 - 09:00 Welcome and registration

09:00 - 09:10 Opening address - Iosseliani D.G.

09:10 - 09:20 Summary, goals and agenda - Babunashvili A.M.

SECTION I

GENERAL ISSUES OF ARTERIAL AND VENOUS ACCESS FROM THE ARM

Moderators: Dundua D.P., Samir Pancholy

Panelists: Semitko S.P., Matchin Yu.G., Stolyarov D.V., Ivanov V.A., Chebotar E.V., Zirjanov I.P.

09:20 - 09:35 Babunashvili A.M. (Moscow)

Do we need routine procedures (Allen test, spasmolytics) before Transradial Interventions?

09:35 - 09:50 Pancholy S. (USA)

Radiation safety issues during Transradial Interventions

09:50 - 10:50 Live case demonstration

10:50 - 11:05 Matchin Yu.G. (Moscow)

Radial, ulnar or brachial approach: when and why? (contemporary evidence base)

11:05 - 11:20 Maiskov V.V. (Moscow)

Radial or Femoral access in coronary interventions

11:20 - 11:35 Terekhin S.A. (Moscow)

Radial or Femoral access in peripheral interventions

11:35 - 12:35 Live case demonstration

12:35 - 12:50 Matchin Yu.G. (Moscow)

Venous interventional procedures from the arm: devices and technique

12:50 - 13:05 Semitko S.P. (Moscow)
Complications of Transradial access: treatment and prevention

13:05 - 13:20 Pancholy S. (USA)
Optimal hemostasis after transradial Interventions

13:20 - 13:35 Merkulov E.V. (Moscow)
Comparison of different hemostatic devices

Lunch symposium (supported by Abbott Vascular and Siemens Healthineers)

13:35 - 13:55 Palena L.M. (Italy)
Remote presentation: Recanalisation of occluded superficial femoral artery. Hybrid procedure with Supera stent (supported by Abbott Vascular)

13:55 - 14:15 Palena L.M. (Italy)
Recanalisation of complex occlusions in lower limb arteries: step-by-step approach (supported by Abbott Vascular)

14:15 - 14:25 Kapralov A. (Moscow)
CT-like images in angiography: technique and clinical application (supported by Siemens Healthineers)

14:25 - 14:35 Koledinskiy A.G. (Moscow)
Rotational angiography – technique and clinical value (supported by Siemens Healthineers)

SECTION II

Case reviews with Faculty «My most interesting TRI case in 2017»

Moderators: Volkov S.V., Maiskov V.V., Eroshkin I.A., Zholkovsky A.V., Kozlov K.L., Mironkov A.B.

Each case presentation – 10 min, discussion – 5 min

14:35 - 14:50 Ishmetov V.Sh. (Ufa)

14:50 - 15:05 Shulz A.A. (Nizhny Novgorod)

15:05 - 15:20 Dmitriev V.K. (Ekaterinburg)

15:20 - 15:35 Shugushev Z.Kh. (Moscow)

15:35 - 15:50 Biryukov S.A. (Ryazan)

15:50 - 16:05 Platonov S.A. (Saint Petersburg)

SECTION III

Let's go distal: Can we recommend distal radial access and transpedal access for everyday clinical practice?

Moderators: Terekhin S.A., Kochanov I.N.

Panelists: Mizin A.G., Maiskov V.V., Lipin A.N., Kwan T., Poljakov K.V., Koledinsky A.G.

16:05 - 16:20 Babunashvili A.M. (Moscow)
Distal radial access as a default approach for transradial Interventions

16:20 - 17:05 Live case demonstration

17:05 - 17:20 Kaledin A.L. (Saint Petersburg)
Systematic use of distal radial access in transradial Interventions

17:20 - 17:35 Obando V. (Costa Rica)
My personal experience in distal radial access for TRI

17:35 - 17:50 Kwan T. (USA)
Transradial and transpedal access for peripheral Interventions

17:50 - 18:05 Bylov K.V. (Moscow)
Our experience of transpedal and hybrid approach in endovascular treatment of peripheral artery disease

18:05 - 18:20 Loginov M.O. (Ufa)
Transpedal access for lower limb Interventions

18:20 - 18:40 Expert panel discussion and take home message

18:40 - 18:45 Babunashvili A.M. (Moscow)
End of Day 1 and overview of second day program

Saturday, 27 January 2018

SECTION IV

Complex coronary and peripheral TRI, new technologies and stents

Moderators: Shugushev Z.Kh., Gil R.

Panelists: Kozlov S.V., Kislukhin T.V., Pavlov P.I., Terekhin S.A., Bylov K.V., Merkulov E.V.

09:00 - 09:15 Pancholy S. (USA)

Is transradial access for complex CTO recanalization safe and effective? Comparison with femoral approach (Data from RECHARGE registry)

09:15 - 09:30 Larionov A.A. (Astrakhan)

Comparative analysis of transradial and transfemoral access for coronary CTO procedures

09:30 - 09:45 Gil R. (Poland)

Left main and complex coronary lesions are not a barrier for transradial interventions

09:45 - 10:45 Live case demonstration

10:45 - 11:00 Kwan T. (USA)

Techniques for recanalization of Tibial vessels chronic total occlusion

11:00 - 11:15 Mizin A.G. (Khanti-Mansiisk)

Alternative accesses for peripheral interventions: Safety, efficacy and rationale of use

11:15 – 11:30 Volkov S.V. (Moscow)

Radial access for carotid interventions: techniques and devices

11:30 – 11:45 Khafisov R.R. (Ufa)

Comparative analysis of femoral and radial access for carotid Interventions

11:45 – 12:00 Strutsenko M.V. (Moscow)

Radial access for endovascular interventions in multidisciplinary hospital

12:00 – 12:10 Обсуждение докладов

Lunch symposium (supported by Angioline)

Clinical program Calypso

First presentation of PATRIOT trial results (Calypso vs Xience)

Moderators: Babunashvili A.M., Kretov E.I., Volkov O.I.

12:10 – 12:30 Kretov E.I. (Novosibirsk)

Single blind prospective randomized multicenter study of efficacy and safety of sirolimus eluting coronary stent Calypso and everolimus eluting coronary stent Xience Prime: results of PATRIOT trial

12:30 – 12:40 Prokhorikhin A.A. (Novosibirsk)

Calypso stent: looking into the future

12:40 – 12:50 Volkov O.I. (Moscow)

Design and analysis of clinical trials in interventional cardiology

12:50 – 13:00 Discussion

SECTION V

Great debate: “Hot topic of the Year in Interventional cardiology”. All eyes on ORBITA. How ORBITA lands in Clinical Practice

Moderators: Ruda M.Ja., Sinitsin V.E., Dundua D.P., Abugov S.A., Giljarov M.Yu., Okhotin A.N., Shugushev Z.Kh., Babunashvili A.M., Pancholy S., Gil R.

13:00 – 13:05 Babunashvili A.M. (Moscow)

Opening remarks

13:05 – 13:15 Abugov S.A. (Moscow)

Can ORBITA change Interventional Cardiology Practice?

13:15 – 13:25 Okhotin A.N. (Moscow)

What does ORBITA mean for general cardiologist and interventional cardiologist

13:25 – 13:50 Expert panel discussion and take home message

SECTION VI

Case reviews with Faculty “My most interesting TRI case in 2017”

Moderators: Ivanov V.A, Bolotov P.A, Terekhin S.A, Mironkov B.L., Tedeev A.K., Shugushev Z.Kh.

Each case presentation – 10 min, discussion – 5 min

13:50 – 14:05 Stoljarov D.P. (Krasnojarsk)

14:05 – 14:20 Larionov A.A. (Astrakhan)

14:20 – 14:35 Khafizov R.R. (Ufa)

14:35 – 14:50 Zholkovsky A.V. (Rostov-on-Don)

14:50 – 15:05 Derkach V.V. (Klin, Moscow Region)

15:05 – 15:20 (Khanti-Mansiisk)

SECTION VII

TRI coronary & peripheral

Moderators: Dundua D.P., Semitko S.P.

Panelists: Chebotar E.V., Stoljarov D.P., Mizin A.G., Sitkin I.I., Volkov S.V., Zholkovsky A.V.

15:20 – 15:35 Zholkovsky A.V. (Rostov-on-Don)

Different techniques for revascularization of aorto-iliac region

15:35 – 15:50 Antropov A.V. (Saint Petersburg)

Brachial access for endovascular treatment in critical Limb Ischemia

15:50 – 16:40 Live case demonstration

16:40 – 16:55 Korotkikh A.V. (Tyumen)

Comparative analysis of femoral and radial access for carotid artery interventions

16:55 – 17:10 Bolotov P.A. (Moscow)

Technical issues for navigation in upper extremity arteries: Tips & tricks

17:10 – 17:25 Derkach V.V. (Klin, Moscow region)

Clinical and cost effectiveness of TRI in ACS patients

17:25 – 17:40 Kozlov S.V. (Ekaterinburg)

TRI in treatment of ACS patients: Data from high volume 24/7 center

17:40 – 17:55 Khovalkin R.G. (Moscow)

Transradial embolization of left gastric artery in patients with severe obesity: technique and preliminary results

17:55 – 18:10 Sukhorukov V.V. (Samara), Babunashvili A.M. (Moscow)

Radial access for embolization of Internal iliac artery branches

- Uterine arteries

- Prostatic arteries

18:10 – 18:25 Dundua D.P. (Moscow)

Lipid lowering therapy after percutaneous interventions: latest data from clinical trials

18:25 – 18:35 Expert panel discussion and take home message

18:35 – 18:40 Best clinical case award

18:40 – 18:45 Babunashvili A.M. (Moscow)

Closure remarks
